Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Torobin et al.
3. Claim 12 is rejected under 35 U.S.C. 102(e) as being anticipated by Simpson et al or Greenhalgh et al or Ko et al.
4. Claim 12 is product by process claim. The patentability of product by process claims is determined by the patentability of the product. Torobin et al, Simpson et al, Greenhalgh et al and Ko et al each disclose a mat of microscopic polymeric fibers. Although the fibers are produced by a different process than that which is claimed the products appear to be identical to that which is claimed.

Allowable Subject Matter

5. Claims 1-11 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not suggest a process of making microscopic polymer fibers

by forming negatively and positively charged droplets of polymer in solution on a substrate and using electrostatic forces to form the fibers between the droplets.
